

AMENDED IN ASSEMBLY JULY 2, 2003

AMENDED IN SENATE APRIL 22, 2003

SENATE BILL

No. 853

**Introduced by Senator Escutia
(Coauthor: Senator Perata)**

February 21, 2003

An act to amend Section 1367 of, and to add Section 1367.04 to, the Health and Safety Code, and to add Section 10133.4 to the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL'S DIGEST

SB 853, as amended, Escutia. Health care service plans: culturally and linguistically appropriate services.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. A willful violation of the act is a crime. Existing law provides for the regulation of health insurers by the Department of Insurance.

This bill would require the department to adopt, not later than January 1, 2006, regulations ensuring access to language assistance and culturally competent health care services. Pursuant to the bill, the regulations would require health care service plans and specialized health care service plans to implement programs to assess subscriber needs, and to provide translation, interpretation, and culturally competent medical services, and would require that the regulations include a process to determine if a health care service plan is required to meet the same or similar standards imposed by a government-sponsored program and whether compliance with those

standards meets or ~~exceed~~ *exceeds* the standards established by the department in its regulations. The bill would require the department to consider specified factors and to seek public input. The department would be required to regularly review information regarding compliance and make recommendations for changes, ~~and to work with the patient advocate to incorporate this information into the quality of care report card~~ *and to report certain information annually to the Legislature and specified advisory committees*. This bill would impose similar requirements on the Insurance Commissioner with respect to health insurers that contract with providers for alternative rates of payment to ensure that insureds have access to translated materials, language assistance, and culturally competent health care services, as appropriate.

This bill would require a contract between a health care service plan and a health care service provider to ensure compliance with the standards adopted by the board, ~~and would require a plan to report annually regarding compliance with the department's standards~~.

By placing additional requirements on health care service plans, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 1367 of the Health and Safety Code is
2 amended to read:

3 1367. A health care service plan and, if applicable, a
4 specialized health care service plan shall meet the following
5 requirements:

6 (a) Facilities located in this state including, but not limited to,
7 clinics, hospitals, and skilled nursing facilities to be utilized by the
8 plan shall be licensed by the State Department of Health Services,
9 where licensure is required by law. Facilities not located in this

1 state shall conform to all licensing and other requirements of the
2 jurisdiction in which they are located.

3 (b) Personnel employed by or under contract to the plan shall
4 be licensed or certified by their respective board or agency, where
5 licensure or certification is required by law.

6 (c) Equipment required to be licensed or registered by law shall
7 be so licensed or registered, and the operating personnel for that
8 equipment shall be licensed or certified as required by law.

9 (d) The plan shall furnish services in a manner providing
10 continuity of care and ready referral of patients to other providers
11 at times as may be appropriate consistent with good professional
12 practice.

13 (e) (1) All services shall be readily available at reasonable
14 times to each enrollee consistent with good professional practice.
15 To the extent feasible, the plan shall make all services readily
16 accessible to all enrollees consistent with Section 1367.03.

17 (2) To the extent that telemedicine services are appropriately
18 provided through telemedicine, as defined in subdivision (a) of
19 Section 2290.5 of the Business and Professions Code, these
20 services shall be considered in determining compliance with
21 Section 1300.67.2 of Title 28 of the California Code of
22 Regulations.

23 (3) The plan shall make all services accessible and appropriate
24 consistent with Section 1367.04.

25 (f) The plan shall employ and utilize allied health manpower
26 for the furnishing of services to the extent permitted by law and
27 consistent with good medical practice.

28 (g) The plan shall have the organizational and administrative
29 capacity to provide services to subscribers and enrollees. The plan
30 shall be able to demonstrate to the department that medical
31 decisions are rendered by qualified medical providers, unhindered
32 by fiscal and administrative management.

33 (h) (1) Contracts with subscribers and enrollees, including
34 group contracts, and contracts with providers, and other persons
35 furnishing services, equipment, or facilities to or in connection
36 with the plan, shall be fair, reasonable, and consistent with the
37 objectives of this chapter. All contracts with providers shall
38 contain provisions requiring a fast, fair, and cost-effective dispute
39 resolution mechanism under which providers may submit disputes
40 to the plan, and requiring the plan to inform its providers upon

1 contracting with the plan, or upon change to these provisions, of
2 the procedures for processing and resolving disputes, including the
3 location and telephone number where information regarding
4 disputes may be submitted.

5 (2) A health care service plan shall ensure that a dispute
6 resolution mechanism is accessible to noncontracting providers
7 for the purpose of resolving billing and claims disputes.

8 (3) On and after January 1, 2002, a health care service plan shall
9 annually submit a report to the department regarding its dispute
10 resolution mechanism. The report shall include information on the
11 number of providers who utilized the dispute resolution
12 mechanism and a summary of the disposition of those disputes.

13 (i) A health care service plan contract shall provide to
14 subscribers and enrollees all of the basic health care services
15 included in subdivision (b) of Section 1345, except that the
16 director may, for good cause, by rule or order exempt a plan
17 contract or any class of plan contracts from that requirement. The
18 director shall by rule define the scope of each basic health care
19 service that health care service plans are required to provide as a
20 minimum for licensure under this chapter. Nothing in this chapter
21 shall prohibit a health care service plan from charging subscribers
22 or enrollees a copayment or a deductible for a basic health care
23 service or from setting forth, by contract, limitations on maximum
24 coverage of basic health care services, provided that the
25 copayments, deductibles, or limitations are reported to, and held
26 unobjectionable by, the director and set forth to the subscriber or
27 enrollee pursuant to the disclosure provisions of Section 1363.

28 (j) A health care service plan shall not require registration
29 under the Controlled Substances Act of 1970 (21 U.S.C. Sec. 801
30 et seq.) as a condition for participation by an optometrist certified
31 to use therapeutic pharmaceutical agents pursuant to Section
32 3041.3 of the Business and Professions Code.

33 Nothing in this section shall be construed to permit the director
34 to establish the rates charged subscribers and enrollees for
35 contractual health care services.

36 The director's enforcement of Article 3.1 (commencing with
37 Section 1357) shall not be deemed to establish the rates charged
38 subscribers and enrollees for contractual health care services.

39 The obligation of the plan to comply with this section shall not
40 be waived when the plan delegates any services that it is required

1 to perform to its medical groups, independent practice
2 associations, or other contracting entities.
